

Illinois

PUBLIC LAND SALES

1817-1872

This file contains the names of Kendalls that purchased public domain land in Illinois between 1817 and 1872. Also listed is the county in which the land was purchased and the date of the sale.

The information in this file was abstracted from a data base of over 500,000 such transactions available on-line from the University of Illinois-Chicago Library at-

gopher://gopher.uic.edu/11/library/libdb/landsale/

The UIC data base contains additional information not covered in this abstract such as number of acres, price per acre, and township identification.

This file may be accessed as follows:

Given Name: The data base is sorted by given name. The majority of the surnames are Kendall, but variants, such as Kindell are present, sometimes for the same person. Sorting by given name prevents splitting up these instances. This sort contains all 181 names found in the UIC file.

County: You may narrow your search to any one of the 41 counties in this file.

To begin your search, click on one of the buttons below.
